CAREER OBJECTIVE

- Interested in the role of a Data Scientist & Software Engineer where I can contribute my analytical skills and knowledge acquired by pursuing my degree in Computer Science. Looking for a dynamic and progressive company where my skills are utilized in the maximum way possible.

WORK

Associate Software Engineer

Codephilics

📅 March 2020 – Present

PROJECTS

Traffic Monitor App

📅 April 2019

- This Project is about to ensure safe road. By this android application the Traffic police of any area can detect any driver who will exceed the speed limit of 40kph in front of Schools, Colleges, Universities, Hospitals and any other sensitive places by tracking through GPS.
- Technologies - Android Studio, Java, GPS, Google Firebase.

Machine Overheat Detection

📅 November 2018

- This project is a project which can be used in places like factories or industries consisting of big machines where it is very necessary to take some action in case the machine is overheated. Because in open eyes we don't get it if our machines are over heated or not. As machine needs not to be over tempered to work efficiently.
- Technologies - Arduino UNO, Temperature Sensor, Bluetooth Module, Android.

PUBLICATIONS

Rice Leaf Disease Detection Using Machine Learning Techniques

📅 October 2019

- To ensure healthy and proper growth of the rice plants it is essential to detect any disease in time and prior to applying required treatment to the affected plants. Since manual detection of diseases costs a large amount of time and labour, it is inevitably prudent to have an automated system. This project presents a rice leaf disease detection system using machine learning approaches.
- Technologies - Weka

AREA OF INTEREST

Data Science   Machine Learning   Software Engineer   Cyber Security   Cryptography

TECHNICAL SKILLS

Problem Solving   Firebase   Git   Trello   Linux Operating Systems   Android App Development   iOS App Development   Web Development

PERSONAL SKILLS

Leadership   Team Work   Public Speaking   Communication   Adaptability
